

*Rubber gloves are recommended for use when applying this product.  
If contact with skin occurs, thoroughly wash with soapy water.*

### APPLICATION RATE

2 packets will treat a 1 surface acre pond 4-6 feet deep.

Toss Dye packets directly into water. Packets will dissolve and pond dye will disperse throughout the entire water body.

If darker color is required, apply an additional packet of pond dye.

#### Calculate Water Body Size:

Length x Width, Divide by 43,560 = Surface Acre
