

BIO-CLEAR™

SPECIAL BLEND

Pond Biologics® Bio-Clear™ Special Blend contains a high concentration of scientifically formulated beneficial bacteria, enzymes, and vitamins for rapid decomposition with visible effects after just a few applications.

- ✓ Maximum acceleration of the breakdown process of organic materials
- ✓ Contains special micronutrients that stimulate the continuous growth of beneficial bacteria
- ✓ Naturally recycles fish waste and uneaten fish food reducing sediment accumulation
- ✓ Reduces algae feeding nutrients
- ✓ Restores the natural balance for a healthier ecosystem
- ✓ Eliminates noxious odors caused by dead algae and fish waste
- ✓ Safe for all animals, fish, plants and humans
- ✓ Easy to use measuring bottle
- ✓ Environmentally friendly.
- ✓ Apply to water temperatures as low as 38° F

Application Rate:

Mix Bio-Clear™ Special Blend with one gallon of pond water (do not use chlorinated water). For best results, stir for 30 seconds and apply mixture in places with high water outflow (close to the pump or filter discharge, at the base of the waterfall or by the filter intake) this will allow for a faster distribution of the bacteria throughout the pond.

One 32 oz container treats up to 80,000 of water

- 1 ounce treats up 2,500 gallons of water
- 2 ounce treats up 5,000 gallons of water
- 3 ounce treats up 7,500 gallons of water
- 4 ounce treats up 10,000 gallons of water
