

MICROBIAL BLEND FOR USE IN AQUACULTURE APPLICATIONS

Pond Biologics® PBAB is a tan, almost odorless custom powder blend of beneficial microorganisms designed to accelerate the biodegradation process of organic material in the water and bottom sediments.

Available in 1 kilo (2.2lbs) hermetically sealed plastic container.

Store in a dry, cool place. Avoid direct sunlight.

BENEFITS

- Improves water and soil quality
- Prevents and reduces the proliferation of cyanobacteria and pathogenic bacteria by competitive exclusion
- Improves the digestive and immune system of aquatic species
- Promotes growth of all aquatic species
- Helps the absorption of nutrients for a better FCR
- Reduces mortality rates
- Reduces ammonia
- Helps eliminate nitrates from the water
- Lowers BOD and COD (Oxygen Demand from undecomposed organic waste)
- Eliminates noxious odors

CHARACTERISTICS

Microbials manufactured in the USA

Probiotic mixture of the highest quality

1.6 billion CFU per gram

Temperature Range: 40° F – 140° F

No activation required, direct application

High Stability, 2-Year Shelf Life.

COMPOSITION

- Bacillus Subtilis
 - Bacillus Pumilus
 - Bacillus Licheniformis
 - Bacillus Amyloliquefaciens
- Carrier: Dendritic Salt

RECOMMENDED APPLICATION RATES

FOR PONDS

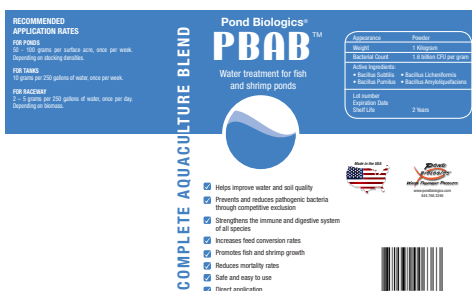

50 - 100 grams per surface acre, once per week.
Depending on stocking densities.

FOR TANKS

10 grams per 250 gallons of water, once per week.

FOR RACEWAY

2 – 5 grams per 250 gallons of water, once per day.
Depending on biomass.

RECOMMENDED APPLICATION RATES

FOR PONDS
50 - 100 grams per surface acre, once per week.
Depending on stocking densities.

FOR TANKS
10 grams per 250 gallons of water, once per week.
Depending on biomass.

FOR RACEWAY
2 - 5 grams per 250 gallons of water, once per day.
Depending on biomass.

**Pond Biologics®
PBAB™**
Water treatment for fish and shrimp ponds

Composition: Powder
Weight: 1 Kilogram
Biological count: 1.6 billion CFU per gram

Active ingredients:

- Bacillus Subtilis
- Bacillus Pumilus
- Bacillus Licheniformis
- Bacillus Amyloliquefaciens

Lot number: L040104-010
Expiry date: 2 Years

COMPLETE AQUACULTURE BLEND

- ✓ Helps improve water and soil quality
- ✓ Prevents and reduces pathogenic bacteria through competitive exclusion
- ✓ Strengthens the immune and digestive system of all species
- ✓ Increases feed conversion rates
- ✓ Promotes fish and shrimp growth
- ✓ Reduces mortality rates
- ✓ Safe and easy to use
- ✓ Direct application
